

DIVOT SAND, COLOURED GREEN

October, 20 Page 1 of 2

PRODUCT

To provide a range of preferences, TARGET provides two divot sand options. Normal divot sand is a natural beige coloured sand and Target has added a TARGET Green Divot Sand that is a washed and dyed silica sand. The dyed colour blends with surrounding turf.

USES

- Repair golf course divots and turf
- Repair sports fields, commercial and home lawns
- Repair 8,000 divots per 1000 kg Super Sack
- Repair 200 divots per 22.7 kg bag

ADVANTAGES

- Convenient and easy to use.
- Harmless to soil.
- Meets USGA specifications.
- Blends with surrounding turf and maintains a uniform look that golf courses desire by reducing scarring.

PHYSICAL PROPERTIES

Colour: Green

Uses a natural non-hazardous dye designed to adhere to the sand surface.

DIVOT SAND, COLOURED GREEN

SIEVE ANALYSIS

Mesh	% Retained	% Passing
10	0	100
18	0.5	99.5
35	9.7	89.8
60	45.5	44.3
70	34.9	9.4
100	7.9	1.5
