

TARGET PORTLAND CEMENT LIME BLEND

June, 2019 Page 1 of 1

PRODUCT

TARGET® Portland Cement Lime Blend offers the best assurance of mortar uniformity during construction. The cement is prepared under tight quality control standards to ensure consistency from batch to batch. **TARGET Portland Cement Lime Blend** has the properties required by masons to create a workable mortar when mixed with masonry sand.

USES

TARGET Portland Cement Lime Blend yields high strength mortar and is designed for use where lateral strength of masonry is desired. Portland Cement lime mortars exhibit superior bond characteristics, less shrinkage and cracking than other mortars resulting in greater resistance to water penetration. **TARGET Portland Cement Lime Blend's** workability and board life improves joint coverage, increases production and improves mortar bond.

SPECIFICATIONS

Due to rigid manufacturing standards, **TARGET Portland Cement Lime Blend** is a premium blended product. **TARGET Portland Cement Lime Blend** is a blend of Portland Cement, Type S hydrated lime and a proprietary package of admixtures.

TYPICAL PROPERTIES of TARGET Portland Cement Lime Blend

PROPERTY	RESULT	STANDARD CSA A3002 (Masonry Type S Cement)
Compressive Strength 7 days (Mpa) 28 days (Mpa)	Min. 10.0 Min. 14.5	Min. 9.0 Min. 14.5
Setting Time (min.)	Initial: 175 Final: 400	Initial: Min.75 Final: Min.1440
Air Content, volume (%)	Min: 9% Max: 17%	Min: 8% Max: 20%

MIXING INSTRUCTIONS

Mixing 1 part of Target Portland Cement Lime Blend with 2-1/4 to 3 parts of properly graded masonry sand (ASTM C144) by volume will make a Type S mortar mix in accordance with CSA A3004.

PACKAGING

TARGET Portland Cement Lime Blend is available in 30 kg (66 lb) bags, packaged 40 bags per pallet.
