

CORPORATE OVERVIEW

April, 2015 Page 1 of 2

Target Products Limited (incorporated in 1961) is a wholly-owned subsidiary of the QUIKRETE® Companies (effective February 2008). The company employs over 200 people. The corporate sales office is in Burnaby. A state of the art production facility in Abbotsford was completed in 2006. Target also operates plants in Calgary, Morinville, Winnipeg and Olympia WA. Other subsidiaries include GT Commodities (a transportation group), Target Technologies Inc. (a synthetic sports field division) and Team Mixing Technologies Inc. (a materials' handling division).

Original Product Line:

The company's original product line was cementitious mixes primarily for lumberyards and do-it-yourself box stores. These products provide customers with convenient, quality products for small projects. Over time this product line expanded to include materials that are tailored to the industrial market.

Sand Division:

The company's sand division manufactures and distributes a variety of filter sands and blasting media. In addition to supplying our internal requirements for spec sand materials, the Aldergrove and Morinville plants produce specialty sands for many different industries.

Golf Division:

The golf course and sports field division produces and distributes topdressing and bunker sands, fairway mixes and greens mixes. Target has the ability to supply large projects with on site blending and testing plants. The company has supplied golf courses in Hawaii, Bermuda, Washington, Alberta and British Columbia.

Alberta Operations:

Calgary - In the mid 1980's, Target expanded into the Alberta market with the acquisition of a plant in Calgary. This plant manufactures cementitious products for the Alberta retail market. The plant also produces shotcrete and distributes various blasting products and concrete additives such as silica fume and steel fibers. In 2012 Target moved our production facilities to the new plant.

Morinville - In 1994 Target purchased a sand drying and screening facility located just outside Edmonton in Morinville, Alberta. Target continues to distribute different filter sand and blasting media and now processes its own silica sand. Target's sand is used in a variety of industries such as: sandblasting, filtration, fluid bed power generation, tile grouts, paving joints, and poultry grit.

CORPORATE OVERVIEW

Saskatchewan:

Target's technical expertise as Western Canada's leading shotcrete supplier to the Mining Industry combined with the tradition of Cindercrete Products in Saskatchewan led to the creation of Cindercrete Mining Supplies (a Joint venture partner) in 1997. Cindercrete Mining Supplies is dedicated to supplying the Saskatchewan Mining market with cementitious products.

Manitoba:

Target Products Ltd. expanded operations into Winnipeg in 2012 to assure superior service to its customers in that region. All of the Target/Quikrete cementitious products are available at this plant.

Transportation Group - GT:

GT Commodities was incorporated as Target's own transportation group in August 2000. GT Commodities has a variety of specialized transportation equipment that give us the ability to deliver our products any way our customers require.

Mutual LLC Seattle area:

A successful joint venture was formed in 1996 in Seattle, Washington. Mutual Target LLC combines Target's ability to deliver quality economical products with Mutual Material's ability to service to lumberyards and masonry contractors.

TTII Division:

Target Technologies International Inc (TTII) was incorporated early in 2002 as a new division of the Target Products Group of Companies. TTII is a virtual sales and marketing company offering quality products (artificial turf infill) and supply chain management logistics services. TTII acts as a procurement agent, representing both vendors and buyers.

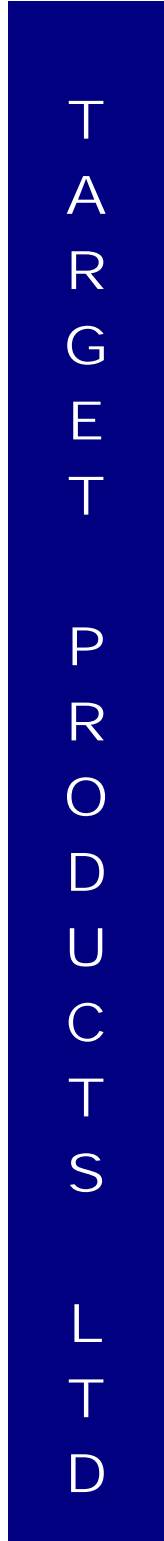

Team Mixing:

In August 2003 Target acquired the material handling division of Thiessen Team creating a new company, Team Mixing Technologies Inc. The acquisition allowed for the integration of Thiessen Team's line of fully automated material handling systems into Target's offerings.

In each of our fields of endeavour Target's aim is to be the favoured supplier to our customers. By working with our customers to identify their current and future needs Target wants to assure the continued success of our valued partners.

YOUR PARTNER IN QUALITY

TARGET is a registered trade-mark of Quikrete Canada Holdings Limited. Target Products Ltd. is an authorized licensee.
